**Details:**

- Arcane text is a written set of words that has been inhabited by living magic.
- Arcane text is usually obvious in that each letter appears to be constantly moving.
- the caster must connect with the living words on a personal level.
- the nature of Arcane life is so foreign there never has been any true understanding of it.
- the counter spell of 'Tiro Mess' will not only end the spell,
  - will also cause the Save to become one column more difficult.
  - thus repeated 'Tiro Mess' spells could end up so extreme as to destroy the Arcane text.

**WHAT THIS DOES:**

- ... attempt to put the caster in sync with the arcane text,
  - Caster rolls a MGC Save to attempt to align themselves.
  - Passing the Save indicates a good connection and translation (reading) is possible.
  - Failing MAY cause the arcane to become unresponsive.
  - The Nae'Em connection lasts only as long as the spell.
- ... require the caster to be writing the entire duration,
  - thus writing materials are required as well.
- ... allow review and understanding of the translation AFTER the duration is over.

  - If the Save is passes the Sleight of Hand was not noticed,
  - If the Save is failed the Sleight of Hand was noticed.
- Does allow the Rogue to use the Skill Distraction to gain an advantage,

## Details:

- Arcane text is a written set of words that has been inhabited by living magic.
- Arcane text is usually obvious in that each letter appears to be constantly moving.
- the caster must connect with the living words on a personal level.
- the nature of Arcane life is so foreign there has never been any true understanding of it.
- the counter spell of 'Tiro Mess' will not only end the spell,
  - will also cause the Save to become one column more difficult.
  - thus repeated 'Tiro Mess' spells could end up so extreme as to destroy the Arcane text.
- Save vs interpretation. Each attempt requires a recasting of this spell.
  - 2nd attempt at 3rd column.
  - 3rd attempt at 4th column.

## WHAT THIS DOES:

- Does attempt to put the caster in sync with the arcane text,
  - Caster rolls a Save to attempt to align themselves.
  - Passing the Save indicates a good connection and translation (reading) is possible.
  - Failing MAY cause the arcane to become unresponsive.
  - The Nae'Em connection lasts only as long as the spell.
- Does require the caster to be writing the entire duration,
  - Thus writing materials are required as well.
- Does allow review and understanding of the translation AFTER the duration is over.
- Does create a Nae'Em connection to begin the rollout.
- Does end the Nae'Em connection when the duration is over.

## WHAT THIS DOES NOT DO:

- Does NOT allow a permanent 'learning' of arcane text,
  - Since arcane is living and constantly moving it cannot be decoded or learned.

## WHAT THIS DOES:

- Does require both the caster and the GM to roll Saves.
- Does set the Casters Save Column to 3.
- Does require the GM to determine the Save Column based on the nature of magic of the item.
- Does affect any spells that have a Duration that is NOT permanent.

## Comparison process:

- Caster rolls a Save and determines how close they are to passing,
  - Caster might be xx amount OVER the needed Save or XX under the needed Save.
- GM must FIRST determine the Save Column based on the item.
  - GM then rolls a Save and determines how close they are to passing,
  - GM might be xx amount OVER the needed Save or XX under the needed Save.
- Casters and GM results are compared,
  - If the casters result is higher then item's magic has been dispelled,
  - If the GMs result is higher OR equal the magic stays as is.

## WHAT THIS DOES NOT DO:

- Does NOT ensure the caster is safe from side effects or curses.
- Does NOT affect any magic/spells that are non-permanent.

**Details:**

-- The process of putting magic into an item is done by first.

Process of making a permanent magic item is done by obtaining a high quality item, putting an arcane aspect into it using the Focus Item sealing it with permanence. This spell can put the arcane aspects into the item

**WHAT THIS DOES:**

putting an arcane aspect into it,

Caster casts one of the 'Identify x aspects' to hold the item open for up to 3 days per aspect ID'd.

This may be recast to hold it open for another 3 days per x if needed.

Caster attempts to coax arcane power into the item.

Caster casts the 'Coax Arcane Aspect' spell using a SKL:>99, if the Focus item is used then caster can use Save of SKL:4

**WHAT THIS DOES NOT DO:**

to compare to the arcanes SKL:4 Save of 55.

Player rolls the casters SKL:4 / SKL:>99 and notes how close to the SKL:4 / SKL:>99 they came  
GM rolls the arcane's SKL:4 of 55 and notes how close to the SKL:4 they rolled.

Passing a Comparison Save happens by being the highest above the required Save.

If both are below the required Save then the one that is below by the least amount passes.

The Caster Passing the save is able to put an arcane aspect into the item.

The Arcane passing means it does not go into the item.

Each aspect needs a single condition and single result
